10 Ways to Save Money When Buying a New Home

Although most homes for sale are resales, one out of four homebuyers purchases a new home. Which is better: existing or new? The right answer, of course is up to you. While resales (of existing homes) are less expensive on average, new homes offer advantages. Existing homes (resales) have the advantage of more established surroundings consisting of mature neighborhoods, often with landscaping that is fully done.

New homes, on the other hand, offer innovative use of space, greater energy efficiency and choices of options and upgrades. Everything is new and modern.

Most people consider both new and existing homes before they decide to purchase. A new, special insider report entitled "New Homes - 10 Tips to Save You Time and Money" has just been released which identifies 10 invaluable tips to save you time and money when purchasing a brand-new home. Also revealed are little-known buyer advantages that most builders may not tell you.

To learn more about what you should be aware of before you visit your first model home, order this free report today.

11 Critical Home Inspection Traps to be Aware of Weeks Before Listing Your Home for Sale

According to industry experts there are over 33 physical problems that will come under scrutiny during home inspection when your home is for sale. A new report has been prepared which identifies the eleven most common of these problems, and what you should know about them before you list your home for sale.

Whether you own an old home or a brand new one, there are a number of things that can fall short of requirement during a home inspection. If not identified and dealt with, any of these 11 items could cost you dearly in terms of repair. That's why it's critical that you read this report before you list your home. If you wait until the building inspector flags these issues for you, you will almost certainly experience costly delays in the close of your home sale or, worse, turn prospective buyers away altogether. In most cases, you can make a reasonable pre-inspection yourself if you know what you're looking for and knowing what you're looking for can help you prevent little problems from growing into costly and unmanageable ones.

To help homesellers deal with this issue before their homes are listed, a fee report entitled "11 Things You Need to Know to Pass Your Home Inspection" has been compiled which explains the issues involved.

To hear a brief recorded message about how to order your FREE copy of this report call toll-free 844-311-5109 and enter ID# 5003. You can call any time, 24 hours a day, 7 days a week.
